Project Director

California State University, Northridge

Earthquake recovery program to provide temporary facilities for classrooms, offices, and support functions to re-open the university immediately after the 1994 earthquake. Work included planning and construction for temporary facilities, and planning for longer-range repairs and reconstruction of damaged facilities.

Manager of Academic & Administrative Projects

University of California, Los Angeles, Capital Programs Division

Responsible for overall leadership of the project management team assigned to all campus projects related to academic and administration facilities. Coordination of design team selection process, design phase management, bidding and award phase, project construction, project close-out, and occupant move-in coordination.

Construction Manager

California State University, Long Beach

\$25 million Performing Arts & Dance Facility

Management of construction phase work for new 1,500-seat performing arts theater, 250-seat dance theater, dance school instruction and support facilities.

Project Manager

MH Golden Company, Pasadena, CA

Hollywood Galaxy

General Contractor team and subcontractor management for \$21 million commercial project in Hollywood, CA. Mixed-use facility include subterranean parking, retail stores, cinema theaters, and food court.

Project Superintendent & Scheduler

Price : Miller Constructors, Westminster, CA

Los Angeles Mission

Subcontractor scheduling and coordination for a new facility for short-term housing and care of indigent men and women. \$20 million project included dormitories, toilet and bathing facilities, assembly areas, classrooms, offices, chapel, and subterranean parking.
